

Our success is your chance.

Mobility is our passion. INIT is the driving force behind public transport.

init

The Future of Mobility

More than 1,400 transport providers worldwide have already opted for INIT. Why? Because we cover their complete range of tasks in a fully integrated solution for planning, dispatching, operation control and ticketing.

This success is owed to our dedicated employees. INIT provides professional opportunities for people with various job interests and backgrounds. Since our business is concerned with the development and distribution of IT solutions, most of our employees work in the fields of software, electrical and industrial engineering as well as international business. Right from the start, they act self-reliantly and in close collaboration with their colleagues. Challenging tasks, team spirit and an inspiring atmosphere belong to their daily work at INIT.

Shaping the Future of Mobility *Together*

Shaping the future of mobility. Together – what does that mean?

We offer our employees a valuable and innovative environment which leaves space for ideas and passion. Together finding new ways and developing public transport further. Our heart beats for mobility!

Yours too?
