

## AUDIT OPTION

### “Independent auditor’s report

To init innovation in traffic systems SE, Karlsruhe

We have audited the consolidated financial statements of init innovation in traffic systems SE, Karlsruhe, and its subsidiaries (the “group”), which comprise the consolidated income statement, consolidated statement of comprehensive income for the financial year from 1 January to 31 December 2019, the consolidated balance sheet as of 31 December 2019, the consolidated statement of changes in equity and the consolidated cash flow statement for the financial year from 1 January to 31 December 2019, and the notes to the consolidated financial statements, including the recognition and measurement principles presented therein. In addition, we have audited the group management report, which is combined with the management report of init innovation in traffic systems SE for the financial year from 1 January to 31 December 2019. In accordance with German legal requirements, we have not audited the content of the statement on corporate governance published on the website, which is a component of the management report, and the Responsibility Statement by the Legal Representatives included in the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying consolidated financial statements comply, in all material respects, with the IFRSs as adopted by the EU, and the additional requirements of German commercial law pursuant to Sec. 315e (1) HGB [“Handelsgesetzbuch”: German Commercial Code] and, in compliance with these requirements, give a true and fair view of the assets, liabilities and financial position of the Group as at 31 December 2019 and of its financial performance for the financial year from 1 January to 31 December 2019, and
- the accompanying group management report as a whole provides an appropriate view of the Group’s position. In all material respects, this group management report is consistent with the consolidated financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the group management report does not cover the content of the declaration on corporate governance and the content of the Responsibility Statement by the Legal Representatives referred to above.

Pursuant to Sec. 322 (3) Sentence 1 HGB , we declare that our audit has not led to any reservations relating to the legal compliance of the consolidated financial statements and of the group management report.

### Basis for the opinions

We conducted our audit of the consolidated financial statements and of the group management report in accordance with Sec. 317 HGB and the EU Audit Regulation (No 537/2014, referred to subsequently as “EU Audit Regulation”) and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the “Auditor’s responsibilities for the audit of the consolidated financial statements and of the group management report” section of our auditor’s report. We are independent of the group entities in accordance with the requirements of

European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Art. 10 (2) f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Art. 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the consolidated financial statements and on the group management report.

### **Key audit matters in the audit of the consolidated financial statements**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year from 1 January to 31 December 2019. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon; we do not provide a separate opinion on these matters.

Below, we describe what we consider to be the key audit matters:

#### **1. Revenues from construction contracts**

Reasons why the matter was determined to be a key audit matter

The init group mainly generates its revenues from project development work for providers of public passenger transport. These projects are generally long-term construction contracts; income from these contracts is recognized using the percentage of completion (PoC) method based on the effective progress of the respective performance obligations. The percentage of completion of unfinished and incomplete performance obligations as of the reporting date is calculated using the cost-to-cost method. We defined this subject matter as a key audit matter for our audit because the application of the percentage of completion method requires judgment by management related to the performance obligations identified in contracts, remaining total contract costs and total contract revenues. Changes in these judgments may lead to a significant increase or decrease in revenues and in net profit or loss for the period. Regarding revenue recognition, there is also a risk of error or infringement, whether due to fraud or error, when determining the achievement of performance targets and forecasts. The further application of IFRS 15 in financial year 2019 regarding the disclosures in the notes to the financial statements was also relevant for our audit.

#### **Auditor's response**

As part of our audit we relied on a controls-based approach and assessed and tested the underlying corporate processes. Furthermore, we also performed substantive audit procedures.

Our audit procedures included reviewing significant contracts and analysing the identified performance obligations. The audit also included reviewing whether the progress of the project with regard to the contract values and the share of the costs incurred was determined correctly. For this purpose we particularly reviewed the allocation of costs regarding the amount and the related project using orders, evidence of performance as well as supplier invoices. We also reviewed samples of costs reported by every employee involved on a project by reconciling the incurred hours with the recorded hours and obtained an understanding of the hourly rates used for the calculation for individual employee groups. Furthermore, we tested the recognized future costs for plausibility and assessed the budget history to draw conclusions regarding reliability of the future cost estimates. We obtained explanations and evidence from the project managers for significant deviations from previous-year assumptions for costs recorded in the reporting period. We assessed the compliance of the accounting and measurement principles applied by init innovation in traffic systems SE for the

recognition of revenues with the IFRS framework and the relevant IFRSs standards. To address the audit risk of this audit field, we ensured group-wide consistent audit procedures by issuing corresponding instructions to the component auditors. With regard to further application of IFRS 15, we examined the processes implemented by init innovation in traffic systems SE for determining the necessary disclosures in the notes to the financial statements.

In assessing the contract analysis performed by the executive directors, we evaluated in particular whether the requirements to recognize revenue over a period of time have been met based on a sample of construction contracts.

In addition, we have acknowledged the disclosure of revenue recognition carried out in accordance with IFRS 15 of init innovation in traffic systems SE's consolidated notes in chapter II. and chapter III. (1). Our audit procedures did not lead to any reservations relating to the accounting treatment of project-related revenues.

### **Reference to related disclosures**

The disclosures on revenue recognition from construction contracts are to be found in the "Revenue Recognition" section of Section 3 "Accounting policies and consolidation principles" and in Section 4 "Revenues" in the notes to the income statement in the notes to the consolidated financial statements.

## **2. Measurement of inventories**

### **Reasons why the matter was determined to be a key audit matter**

The init group procures a significant amount of hardware for processing construction contracts. To safeguard long-term supply to customers, the init group procures and stores significant inventories beyond those needed to process the construction contract, particularly for hardware components. Due to the high level of customization and the general technical development, the majority of these hardware components can only be used as spare parts for past contracts. These are recognized at the lower of cost or net realisable value. To ensure a measurement of inventories at the lower of these values, the expected net realisable values are determined with the help of percentage age-specific allowances that are based on experience and evaluations of past projects. The determination of the allowances applied is based on assumptions from past experience and is therefore subject to judgement by the executive directors.

### **Auditor's response**

Taking into account the fact that there is an elevated risk of misstatements in the accounting due to the estimates and assumptions being made, we examined the valuation processes implemented by the group and verified the allowances. For this purpose, we discussed the expected sales or processing periods for significant inventories with project managers, checked the procedure of past projects for consistency with the assumed sales or processing periods, thus reviewing the appropriateness of the allowances on a sample basis. In addition, we recalculated the system-based implementation of the impairments calculated using the defined allowances on a sample basis. Our audit procedures did not lead to any reservations relating to the measurement of inventories. To mitigate the inherent audit risk of this audit field, we ensured a group-wide consistent audit procedure by issuing corresponding instructions to the component auditors.

### **Reference to related disclosures**

Further disclosures on the measurement of inventories are to be found in section “Estimates and assumptions” and “Inventories” section of Section 3 “Accounting policies and consolidation principles” and in Section 5 “Costs of sales” in the notes to the income statement as well as in Section 17 “Inventories” in the notes to the statement of financial position in the notes to the consolidated financial statements of the company.

### **Other information**

The Supervisory Board is responsible for the Report of the Supervisory Board according to Section 171 (2) AktG [“Aktengesetz”: German Stock Corporation Act] as well as for their CVs. In all other respects, the executive directors are responsible for the other information. The other information comprises the “Responsibility Statement by the Legal Representatives” according to Section 297 (2) Sentence 4 HGB in the group management report and also the following components of the Annual Report. We received a version of this by the time this auditor’s report was issued:

- To the shareholders
- CVs of the members of the Managing Board
- init share
- Report of the Supervisory Board
- CVs of the members of the Supervisory Board
- Corporate Governance Report.
- Multi-period overview of the group key figures (IFRS)

Our opinions on the consolidated financial statements and on the group management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the consolidated financial statements, with the group management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

### **Responsibilities of the executive directors and the supervisory board for the consolidated financial statements and the group management report**

The executive directors are responsible for the preparation of the consolidated financial statements that comply, in all material respects, with IFRSs as adopted by the EU and the additional requirements of German commercial law pursuant to Sec. 315e (1) HGB, and that the consolidated financial statements, in compliance with these requirements, give a true and fair view of the assets, liabilities, financial position and financial

performance of the Group. In addition, the executive directors are responsible for such internal control as they have determined necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the executive directors are responsible for assessing the Group's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting unless there is an intention to liquidate the Group or to cease operations, or there is no realistic alternative but to do so.

Furthermore, the executive directors are responsible for the preparation of the group management report that, as a whole, provides an appropriate view of the Group's position and is, in all material respects, consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a group management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the group management report.

The supervisory board is responsible for overseeing the Group's financial reporting process for the preparation of the consolidated financial statements and of the group management report.

#### **Auditor's responsibilities for the audit of the consolidated financial statements and of the group management report**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the group management report as a whole provides an appropriate view of the Group's position and, in all material respects, is consistent with the consolidated financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the consolidated financial statements and on the group management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sec. 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and this group management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and of the group management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit of the consolidated financial statements and of arrangements and measures (systems) relevant to the audit of the group management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements and in the group management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements present the underlying transactions and events in a manner that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with IFRSs as adopted by the EU and the additional requirements of German commercial law pursuant to Sec. 315e (1) HGB.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express opinions on the consolidated financial statements and on the group management report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinions.
- Evaluate the consistency of the group management report with the consolidated financial statements, its conformity with [German] law, and the view of the Group's position it provides.
- Perform audit procedures on the prospective information presented by the executive directors in the group management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

### **Other legal and regulatory requirements**

#### **Further information pursuant to Art. 10 of the EU Audit Regulation**

We were elected as group auditor by the Annual General Meeting on 15 May 2019. We were engaged by the Supervisory Board on 26 September 2019. We have been the auditor of init innovation in traffic systems SE without interruption since financial year 2001.

We declare that the opinions expressed in this auditor's report are consistent with the additional report to the audit committee pursuant to Art. 11 of the EU Audit Regulation (long-form audit report).

In addition to the financial statement audit, we have provided to group entities the following services that are not disclosed in the consolidated financial statements or in the group management report:

- Voluntary audit of annual financial statements,
- Tax advisory as well as
- Review of interim financial statements

#### **German Public Auditor responsible for the engagement**

The German Public Auditor responsible for the engagement is Peter Werling.”
